

Guidance for Grant Applications to Idorsia Pharmaceuticals UK Ltd

Idorsia UK is committed to enhancing patient care and raising disease awareness and education. One of the ways we achieve this is through the provision of grants to healthcare and patient organisations.

Idorsia UK will provide Grants that are in line with the Association of British Pharmaceutical Industry (ABPI) Code of Practice requirements. For more information on the ABPI code requirements, please visit the ABPI website [The Association of the British Pharmaceutical Industry](https://www.abpi.org.uk).

What is a Grant?

Grants are the provision of funds, given for the purpose of supporting healthcare, scientific research or education, with no obligation on the recipient organisation or institution to provide goods or services to the benefit of the pharmaceutical company in return.

As per the ABPI code requirements:

- Grants may only be offered to healthcare organisations, patient organisations or other organisations supporting healthcare, scientific research or education
- Applications for an individual recipient or individual benefit **will not** be considered
- Organisations must be transparent about the provision and receipt of a grant.
NOTE: All grants provided by Idorsia UK will be publicly disclosed in our annual Transfer of Value Disclosure report
- Grants **must not** involve any benefit to Idorsia UK

Additional Considerations

- Idorsia UK will consider grant applications that relate to chronic insomnia
- Idorsia UK will only consider grant applications to support educational events from healthcare organisations, universities and other non-profit research organisations
- The focus of the grant application should be disease-related rather than product focused
- Grants **must not** be made in conjunction with any product promotional activities, and may not be made dependent upon any, prescribing, recommendation or sale of Idorsia products
- Projects/activities that have already been undertaken **will not** be considered. All projects must be prospective in nature
- Requests for core funding will not be considered
- Idorsia UK is unable to provide support towards any events which the agenda includes an entertainment component (e.g. sporting or leisure events), meetings which take place in deluxe venues or those renowned for their entertainment facilities (e.g. racing circuits, football stadiums etc)
- Grant applications must be made in the absence of any conflict of interest. Any appearance of a potential conflict of interest must be made transparent in the application
- Idorsia UK will only provide grants to organisations with an official place of residence in the United Kingdom

For further guidance, please refer to the ABPI code of practice

How to apply

To apply for a grant from Idorsia UK, click [here](#). We advise that you provide as much information as possible so that we can have a full understanding of your project.

Once your grant application has been submitted, it will undergo a review process and you will be contacted by a member of our Grants Committee team.

If you have any questions, please complete the [Idorsia UK General Contact form](#).
